

Introducing Mix-in protein granules powered by SIT™ (Sprinkle It Technology)

Discover a breakthrough protein enrichment format to help people get the intake they need, their way.

Mix-in protein granules powered by SIT™ can supplement a wide variety of meals and snacks at any time of day.

Warm or cold

Savory or sweet

Solid, semi-solid, or liquid

Allowing individuals to consume protein **their way**.

Protein intake is important

- Preserves muscle mass
- Maintains healthy immune function
- Supports recovery from illness or surgery
- Reduces disease-related complications
- Champions independence

Especially for individuals with specialized nutritional needs.

Senior adults with muscle decline

People living with health conditions (sarcopenia or cancer cachexia)

Long-term care residents

GLP-1 users

However, this can be difficult

36%

of surgical patients

54%

of older adults

57%

of GLP-1 users

up to

66%

of cancer patients

do not meet the expert-recommended protein intake levels for their health needs.

Current powder-based protein enrichment solutions can come with limitations.

Poor solubility

Unpleasant sensory experience

Requires large volumes

Limited applications

Resulting in:

- Diminished patient experience and convenience
- Limited dietary compliance
- Poor protein intake

Make protein intake enjoyable and convenient with Mix-in protein granules powered by SIT™

Small volume, high protein density

Pleasant sensory experience

Neutral taste

Versatile to accommodate dietary preferences and routines

Protein for every plate

Easily incorporate into daily diets or nutritional care protocols:

5 mins

Soften with boiling water and blend into preferred meal or snack

5 mins

Soften directly in the meal during cooking

>2 hours

Add to liquids like milk and chill in the fridge

Enjoyable protein intake experience

Increased dietary compliance

Improved health outcomes

Together, we can revolutionize protein intake for those who need it most

Expand protein enrichment options beyond drinks and shakes with Mix-in protein granules powered by SIT™.
