

Premix Solutions Streamline your business

dsm-firmenich takes you beyond ingredients to custom nutrient Premixes. Made with your consumers at the heart.

As your end-to-end partner, we help you co-develop desirable and sustainable science-backed solutions to support you from concept to consumer.

Together elevating health.

01

The problem

Your consumers don't want to hear about supplier complications. Your consumers want quality products, fast, from a reliable source.

At dsm-firmenich, we know making finished products is a complicated business. It requires dealing with multiple suppliers with numerous ingredients, complex, time-consuming inventory management; and obsolete ingredients that must be stored in expensive warehouses to avoid costly waste.

For a long time, this inefficient process has been the only option. Until now.

Our solution

We've created a single solution that reduces complexity in your value chain while significantly increasing efficiency.

Buy what you need, as you need it with our optimal batch and pack sizes. This creates a fully synchronized supply of micronutrients that reduces supply chain waste and could help you eliminate obsolete inventory by as much as 60%*.

With Premix Solutions, you can expect greater quality, traceability, and production capacity.

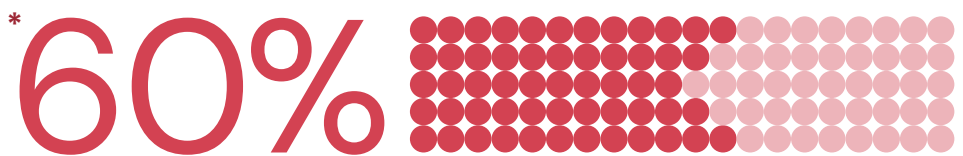

Less time managing complex supply chains means more time to focus on what matters: your consumers and growing your business.

Contact your dsm-firmenich sales rep to learn how Premix Solutions could revolutionize your value chain.
