

# Supporting GI health & immune function

**Leva-Mos<sup>®</sup>: a sustainable &  
cost-effective prebiotic solution for dogs**

Consumers are increasingly interested in products that support immune health in their pets. This is due to an increasing awareness of the link between gut health and overall wellbeing. Prebiotics like Leva-Mos<sup>®</sup> can help support a healthy gut microbiome by promoting the growth of beneficial bacteria.

# Supporting GI health & immune function

Leva-Mos® is a prebiotic oligosaccharide that's rich in Mannan Oligosaccharides (MOS) and Beta-glucans. It's a high-quality ingredient derived from baker's yeast. Leva-Mos® is produced through dedicated baker's yeast fermentation under strict hygienic conditions. It contains a high concentration of beta-glucans linked 1,3 and 1,6, as well as active MOS, in a convenient spray-dried powder. Its single-sourced yeast cell wall product ensures quality.

Leva-Mos® supports gastrointestinal health by stabilizing the gut microflora, maintaining gut health during normal microbial enteric challenges, binding to food pathogens in the GI tract, and supporting intestinal barrier function. Its branched glucan structures support a balanced immune function, making it an ideal choice for pet parents who want to support their pets' overall health and wellbeing.

## What pet owners & their pets need:

- ✓ Digestive health
- ✓ Gut integrity
- ✓ Immune function

## What Leva-Mos® delivers:

- ✓ **Support of healthy digestion**  
by stabilizing the gut microflora and maintaining gut health even during normal microbial enteric challenges.
- ✓ **Help to sustain GI health & immune function**  
by supporting the intestinal barrier function, which is crucial for overall digestive and immune wellbeing.
- ✓ **A cost-effective solution**  
supporting top health claims that drive brand value.

Consumer interest in products that promise to support immunity is on the rise combined with the growing awareness of the link between gut flora and overall health.

**63%** of pet parents want to see  
"Helps aid digestive health"  
on pet products

**51%** of pet parents want to see  
"Help aid immune health"  
on pet products
