

Eubiotic Solutions

From microbiota establishment to gut resilience and performance optimization

dsm-firmenich

Our Eubiotic Solutions support animal health, resilience and performance by addressing key challenges for optimal gastrointestinal functionality across species and production.

Building an optimal gastrointestinal ecosystem

Beyond solutions: Our Precision Services

Our science-driven Precision Services complement our eubiotic technologies by transforming biological, environmental, and production data into actionable insights for better decision-making and sustainable performance.

From microbiota establishment to performance excellence

One integrated portfolio combining Eubiotic Solutions, advanced technologies and Precision Services to support animal health, resilience and sustainable productivity.

SciTell™ Microbiome – Unlock microbiome intelligence

Non invasive advanced microbiome analysis providing concrete actionable recommendations for resilience and performance solutions.

Sustell® – Measure and improve sustainability performance

Life cycle assessment platform supporting environmental footprint reduction and sustainability benchmarking.

Verax™ – Turn data into confident decisions

Integrated analytics platform transforming production and health data into practical performance insights.

We bring progress to life
